Thank you \**God* for deprogramming my lifetime programs that are not for the highest good of manifesting my total being and expression in this lifetime by clearing the Akashic records regarding healing all my physical and spiritual minds and bodies, chi, sexuality, chakras, etheric fields, aura, sacred heart, soul, operating Elements, spirit with all related programs, on all levels, layers and depths to infinity and beyond, all dimensions and time frames, down to the cellular level and sub-cellular particles, including my DNA, chromosomes, mitochondria, and quantum particles. Thank you for bringing my whole being into balance, into alliance and realignment for the highest good, on the physical, chemical, mental, spiritual and emotional levels in this time and place called here and now.

Thank you \**God* for putting me back into my body if I am fragmented and for activating my designer gene to installing the perfect blueprint regarding healing all my physical and spiritual minds and bodies, chi, sexuality, chakras, etheric fields, aura, sacred heart, soul, operating Elements, spirit, with all related programs, all levels, layers, depths to infinity and beyond, all dimensions and time frames, down to the cellular level and sub-cellular particles, including my DNA, chromosomes, mitochondria, and quantum particles, to bring them into perfect alliance, balance and connection together with one another, for the highest good of manifesting my total being and expression in this lifetime on the physical, chemical, spiritual, mental and emotional levels in this time and place called here and now.

Thank you \**God* for connecting, balancing and putting back in to alliance of my chakras, my different bodies including my physical, emotional, chemical, esthetic, mental, spiritual, intuitive, sole, astral and my light bodies, so they become 100% in alignment with each other with this healing process as my karmic knots become untangles and eliminated, in this zero point time and place called here and now.

I am in total acceptance of myself and complete gratefulness for who I am, I extend all of this healing to all of my past, all of my present and all of my future. I accept this healing in my life now and have body awareness on this healing now.
